and stay cool**

## The Insulating Koolcover™

Primarily created to keep pool water refreshingly cool during those hot summer months, the revolutionary Koolcover™ Oasis Pool Blanket keeps the water in and the heat out. It insulates your pool by maintaining its temperature throughout the year – you'll also find it helps to keep the chill off the water when winter hits! You insulate your house to keep it cooler in summer and warmer in winter – Koolcover™ is the insulating pool cover.

## How Does it Work?

Koolcover™ works like a regular solar blanket, *but without heating your pool*. In the heat of summer, it reflects the sun's solar energy away, stopping it before it heats the pool water. During cooler periods, it protects the pool surface from wind and cold, and prevents overnight evaporation. Cover your pool with Koolcover™ to maintain a consistent, optimum temperature – cooler when its hot, warmer when its cold – and save water at the same time.

## Save Water

Koolcover™ will cut your evaporation by up to 95%, and is an approved water-saving device which meets certain council & government requirements, carrying the Smart Approved Watermark. When you eliminate evaporation, you save water – during summer, this can be as much as 10,000 litres a month!

## Save on Heating

By helping to keep a more consistent temperature, and virtually eliminating evaporation, Koolcover™ will reduce your heating costs by around 75%!

## Save Money

Koolcover™ provides an efficient, insulating barrier between your pool and the sun. With correct use, it will reduce your chemical usage by up to 50%. With the money you save on pool chemicals, water and cleaning time, your new ABGAL Pool Blanket will virtually pay for itself within 18 months.

## Save Work

Using a Koolcover™ Oasis Pool Blanket will also save you valuable maintenance time! By keeping leaves and debris out of the water, Koolcover™ will keep your pool protected when not in use.

## Made to Last

Made from a durable polymer, Koolcover™ has been specially formulated to resist damage and wear from salt, pool chemicals and harmful UV rays. For your peace of mind, Koolcover™ comes with a 5 year pro-rata warranty.

## Reel Easy

Light and easy to use, we recommend the use of a storage reel for quick and easy handling of your Koolcover™ Blanket. For the ultimate in convenience, see the Hydrotools Reel range for a roller to suit your style and needs.
